

UNIVERSIDADE FEDERAL DO CEARÁ
Campus Quixadá
Curso: Redes de Computadores
Disciplina: Administração de SO Windows

Aula extra – Introdução à Amazon AWS e ao Programa AWS Educate

Prof. Rafael Braga

Acesso via RDP (*Remote Desktop Protocol*)

Clique com o botão direito do mouse.

- Como acessar uma instancia EC2 do Windows Server remotamente?

The screenshot shows the AWS Management Console interface. At the top, there's a navigation bar with 'Resource Groups', a search bar, and user information. Below this, a table lists EC2 instances. The instance 'ws_adim_wi...' with ID 'i-0ce8cde8d03ee9959' is highlighted. A red arrow points to the 'Connect' button in the context menu for this instance. The context menu also includes options like 'Get Windows Password', 'Create Template From Instance', and 'Launch More Like This'. Below the table, the details for the selected instance are shown, including its state ('running'), type ('t2.medium'), and public IP address ('3.229.113.168').

Name	Instance ID	Instance Type	Availability Zone	Instance State	Status Checks	Alarm Status	Public DNS (IPv4)	IPv4
ws_adim_wi...	i-0ce8cde8d03ee9959	t2.medium	us-east-1f	running			ec2-3-229-113-168.co...	3.229

Instance: **i-0ce8cde8d03ee9959 (ws_adim_win_2020.1)** Public DNS: ec2-3-229-113-168.compute-1.a

Description		Status Checks	Monitoring	Tags
Instance ID	i-0ce8cde8d03ee9959			
Instance state	running			
Instance type	t2.medium			
Finding	You may not have permission to access AWS Compute Optimizer.			
Private DNS	ip-172-31-65-97.ec2.internal			
Private IPs	172.31.65.97
